

Please

Don't Screw It Up!

Do you have a shovel onboard?

(for all of us)

Every single time a traveller or tourist leaves litter or Toilet Paper behind, they contribute to the closing of rest stops and free camps.

**PLEASE - if you do not have a chemical toilet ...
USE A SHOVEL and dig a small hole (just 15cm - 20cm is deep enough) -
fill it in when you're done - it's not that hard!**

As a responsible traveller, I strongly object to being blamed for and prevented from stopping in places because of the actions of just a few.

Join our "USE a SHOVEL" campaign - copy this flyer and distribute to every traveler you meet ask them to do the same.

Together we can make this problem disappear.
